## *Cotnari*

Dacia Cotnari is produced in the Cotnari region of Romania, famed for its naturally sweet dessert wines. Made from a traditional blend of native grapes, Dacia yields a wine golden in color with a rich bouquet and flavor with at least five percent residual sugar. Much of the wine's quality is the result of Cotnari's limestone soil in addition to a climate that is particularly conducive to botrytis cinerea.

Dacia Cotnari's vineyards have been famed since the Middle Ages when its wine was first called the Pearl of Moldavia, a name it still enjoys today. Serve chilled with desserts or on the rocks as a cocktail.
